

- Send to 1) Email: [Registrar@InternationalLilacSociety.org](mailto:Registrar@InternationalLilacSociety.org); OR  
2) International Cultivar Registration Authority for the Genus Syringa L., International Lilac Society  
c/o Mark L. DeBard, MD, Registrar; 810 Bluffview Drive, Columbus OH 43235 USA
- required field = \*; must be completed in Roman script except for any original non-Roman script name
- herbarium specimens are to be sent to a Nomenclatural Standard Herbarium (ICNCP 9<sup>th</sup> edition, Appendix III, p. 101-110), preferably the Royal Botanical Gardens in Hamilton, Ontario, Canada; instructions are in Appendix A1
- precedence is not fixed until publication. ICRA will attempt to publish once yearly, registrant may wish to publish sooner.

## APPLICATION FOR INTERNATIONAL LILAC CULTIVAR NAME REGISTRATION

<p><b><u>Proposed Cultivar Name and Nominator*</u></b> (including diacritical marks; if a transliteration, include non-Roman script language original form or characters)</p>	
<p><b><u>Etymology/Meaning/Significance of Cultivar Name*</u></b></p>	
<p><b><u>If Named for Living Person, Permission Obtained from that Person*</u></b> (Yes/No)</p>	
<p><b><u>Name Previously Used/Described*</u></b> (Yes/No; include full publication reference if yes)</p>	
<p><b><u>Taxon</u></b> (including Species or hybrid binomial, and any and all subspecies or variety)</p>	
<p><b><u>Parentage (seed female × pollen male)</u></b> (or parent plant if a sport)</p>	
<p><b><u>Other Names</u></b> (e.g., code or trade names)</p>	
<p><b><u>First Breeder/Finder Full Name*</u></b></p>	
<p><b><u>Breeder/Finder Address, Phone, Email*</u></b> (include Assignee/Employer Name, Address)</p>	
<p><b><u>Original Seedling (Ortet) Year of Selection or Discovery*</u></b></p>	
<p><b><u>Ortet First Flowering Year</u></b></p>	
<p><b><u>Propagated Plant 100% True to Ortet*</u></b> (Yes/No)</p>	

<b><u>Associated Plant Patents*</u></b>	
<b><u>Awards</u></b> (dates, names of awarding body)	
<b><u>Cultivar Name Published*</u></b> (Yes/No); if yes, give date of and literature reference for first publication	
<b><u>Diagnostic Description*</u></b> (distinguishing characteristics)	
<b><u>Florets Average Diameter*</u></b> (metric)	
<b><u>Florets Form*</u></b> (single, radial double or multipetaling, staminode double with one corolla, hose-in-hose double with two corollas, or combined)	
<b><u>Corolla Lobes*</u></b> (cuculate (hood-like), reflexed (turned backwards), flat (one plane), etc.)	
<b><u>Floret Color*</u></b> (digital sRGB <u>AND</u> analog color chart, using RHS, ISCC-NBS, Munsel, or Pantone)	
<b><u>Bud Color*</u></b> (digital sRGB <u>AND</u> analog color chart, using RHS, ISCC-NBS, Munsel, or Pantone)	
<b><u>Foliage*</u></b> (color, variegation and type, autumn color if any)	
<b><u>Growth Habit and Size*</u></b> (shrub or tree, height and width, unusual form such as weeping)	
<b><u>Hardiness Low Temperature</u></b> (centigrade)	
<b><u>Herbarium Specimen sent*</u></b> (Yes/No)	
<b><u>Photograph Submitted</u></b> (Yes/No; Yes is preferred)	
<b><u>Signature of Submitter with Date*</u></b>
